## SYMMETRY MATTERS FOR THE ELECTRONIC STRUCTURE OF LIGHT- HARVESTING

Cuvillier Verlag Aug 2008, 2008. Taschenbuch. Book Condition: Neu. 211x144x12 mm. Neuware - In this thesis the electronic structure of light-harvesting complexes from the photosynthetic apparatus of purple bacteria was investigated. The photosynthetic unit consists of mainly two different light-harvesting complexes, the peripheral light-harvesting complex LH2, and the lightharvesting core complex RC-LH1, where the charge separation takes place. The main function of these complexes is the absorption and transfer of light energy to the reaction center. This energyfunnel is formed...

### Reviews

---

*It in a of the most popular publication. It can be full of wisdom and knowledge I am easily could get a enjoyment of reading a written publication.*

-- **Rebeca Schinner**

*A whole new e book with an all new point of view. It is actually writer in straightforward terms instead of hard to understand. You will like just how the writer create this ebook.*

-- **Prof. Doris Dickens**

*This is the greatest pdf i actually have study till now. It is rally intriguing throgh reading through time period. You may like the way the author write this book.*

-- **Archibald Crona**
