It is written in the world`s most popular web scripting language, PHP, and built on the MySQL database server. Are you eager to start creating websites with ExpressionEngine? Written for ExpressionEngine version 2.1 and later, this book will give you clear, concise, and practical guidance to take you from the basics of setting up ExpressionEngine to developing the skills you need to create ExpressionEngine websites to be reckoned with. You will begin with setting up a basic installation of ExpressionEngine. You will then learn how it works, before learning how to create and manage your website in ExpressionEngine. As you progress further into the book you will learn how to build an events calendar and how to build a photo gallery and before you know it, visitors to your website will be able to post comments, search your content, sign-up for a mailing list, and even send their friends an e-mail. As you consider the benefits of buying this book, you will learn how to manage members and member groups, how to optimize your website and avoid repetition, how to remove the index.php file for cleaner URLs, and how to take backups. At the end...
