MOVEMENT SKILL ASSESSMENT

[DOWNLOAD](#)

Human Kinetics Publishers. Hardback. Book Condition: new. BRAND NEW, Movement Skill Assessment, Allen Burton, Daryl E. Miller, This unique text focuses exclusively on the assessment of movement skills, offering background information, discussions of six levels of movement skill assessment, and strategies for implementation. Practical and user-friendly, "Movement Skill Assessment" helps readers acquire the skills they need to successfully carry out their assessment responsibilities. Filled with information on more than 150 tests and including more than 650 references, the book emphasizes a top-down, functional approach to the assessment of movement skills. Part I addresses basic issues that the reader should understand before attempting to assess movement skills: -Purposes of movement skill assessment in educational and therapeutic environments-Definitions and classifications of movement skills-Measurement concepts and calculations-Theoretical approaches to movement skill assessment-Validity and reliability Readers will also find a detailed history of movement skill assessment, beginning before 1850 and continuing through 1974, after which a proliferation of assessment instruments appeared. Part II discusses the six levels of the movement skill taxonomy: -Movement skill foundations-Motor abilities-Early movement milestones-Fundamental movement skills-Specialized movement skills-Functional movement skills This section also includes eight in-depth critiques of popular assessment instruments, such as the Test of Gross Motor Development, the Movement Assessment Battery for Children Checklist, and the Bruininks-Oseretsky Test of Motor Proficiency. In Part III readers will learn how to achieve the goals of movement skill assessment. They'll find an overview of the assessment process, from selecting an appropriate measurement tool to collecting and treating data to interpreting results; a comparison of bottom-up and top-down assessment strategies; and an examination of the latest trends and developments in movement skill assessment. The book's appendixes categorize and summarize 45 commonly used assessment instruments, present 35 selected standards for test users from the Task Force on Standards for Measurement in Physical Therapy, and provide a...
