MULTIPLE SCLEROSIS, AN ENIGMA: FINDING A DIAGNOSIS BUT NOT A CURE

Createspace, United States, 2011. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The true story of a middle-aged woman being unexpectedly diagnosed with a young person s disease: multiple sclerosis. The journey to diagnosis and the reality of the treatment brought a premature end to her career as a public school teacher. Life in the sandwich generation of adults caring for both their elder parents and their children, while balancing full time employment, is discussed with gentle empathy. The difficult economics and the changes in family responsibilities are also a part of this story. The consistent, caring support of family and friends and a mutual respect between patient and doctors is essential in living with a chronic condition such as Multiple Sclerosis.
